I earned my Social Security, contributing with every paycheck. I strongly **oppose** any **cuts or changes to Social Security** that will slash benefits for current or future retirees.

Millions of Americans rely on Social Security for more than half of their retirement income. **Social Security is the bedrock of a secure retirement.**  Social Security is a promise between the American people and the U.S. government. **Congress must KEEP this promise.** That means no cuts to current or future benefits, not letting Wall Street gamble with our money, and not raising the retirement age.
