

## WHO IS HEAR IN AMERICA?

We have been providing hearing care services to groups of retirees since 1995. Our goal is to help people who need hearing correction get the best value and follow-up care possible.

We provide more than just discounts; all of our operators have training in hearing science and hearing aids in order to help you better. We are happy to help you!

## TESTIMONIALS

"This is my second experience with Hear In America. The first one was so good with my first pair of hearing aids that when it was time for new aids I contacted you again. Although I was a bit hesitant to change providers I must say that I am happier than ever with my new hearing aids and my new provider who is a knowledgeable and caring professional. This is in addition to the huge amount of money I saved on my hearing aids. The services you provide are the best and I would highly recommend you to anyone interested in purchasing hearing aids. Thank you."

S.O., Retired Member

"I want to let you know about my positive experience with the Hearing Instrument Plan offered by Hear In America.

With the expert assistance of the Hear In America counselor, I was put in contact with the closest hearing professional to me. It was smooth guidance through the entire process with the professional counsel of these two persons.

It's a whole new hearing world in all aspects of my life, especially as I interact with my spouse, immediate family, groups of all types and sizes, cultural events, daily happenings in life, and yes, even the simple everyday sounds that have returned to be part of my hearing world.

It seems to me that the Association has had a visionary outlook in providing hearing benefits for our group. Indeed, I am delighted!"

R.C., Retired Member

### Benefits of Early Treatment

In addition to improving quality of life, hearing aids can slow down the effects of your hearing loss. Hearing, like muscles, can deteriorate if it is not exercised.

### Use It Or Lose It!

The longer you wait, the more permanent damage may occur.

Call **1-800-286-6149** Now to Activate Your Free Benefits.

**Prevent problems for your whole family by having your hearing checked now.**

Washington, DC 20006

## DEAR ALLIANCE MEMBER,

Announcing a valuable new benefit for Alliance members like you!

Do you or anyone in your family have concerns about hearing loss? Your Alliance has teamed with Hear In America to offer you this hearing benefit plan.

Registration for the plan is FREE for you AND all your extended family members. Once you have registered, you can be assured you are dealing with reputable providers who offer FREE annual hearing screenings and an honest evaluation of your needs. If you find you need hearing aids, you can purchase the leading brands through Hear In America at discounts up to 70% off MSRP. The plan also features additional warranties, loss and damage coverage and follow up care for three years.

If you think you may have a hearing problem, this is a great way to get the help you need to vastly improve your quality of life.

Sincerely,

Richard J. Fiesta  
Executive Director

## YOUR FREE BENEFITS

As an Alliance member, you are entitled to the following benefits:

- **Free annual hearing screening** for you and your immediate family
- Referrals to qualified **local hearing centers**
- **Full line** of high-quality hearing aids available from **top manufacturers**, with prices up to **70% off** manufacturer's suggested prices
- **Three-year repair warranty** includes repair and loss & damage insurance included with new purchases at no additional charge
- **Three-year clean and check service** at no additional charge
- **Three years of batteries included with every hearing aid purchase**

## HOW THE PLAN WORKS

- (1) Call 1-800-286-6149 to register for your free benefit
- (2) Hear In America will refer you to a participating provider in your area
- (3) Make an appointment for your free hearing screening

## STUDIES SHOW ...

**Untreated hearing loss contributes to:**

- Anger and frustration
- Embarrassment
- Worry and anxiety
- Sadness and depression
- Social isolation
- Family and marital difficulties
- Less enjoyment of work and volunteer activities

**In addition, people who suffer from untreated hearing loss report less physical well-being than those who use hearing aids.**

Hearing loss develops slowly, and often goes unnoticed for years. **Don't take the risk of undetected problems any longer.**

**GET YOUR HEARING CHECKED!**

**Call 1-800-286-6149**  
to register for your  
free screening!
